POLICY ON ENVIRONMENT AND ENERGY UTILISATION

Pydah college of Engineering focuses on energy usage in such a manner that it reduces the burden of the government and to find out alternate resources as solutions to energy crisis and to protect the environment. The policy applies to the whole institution - its members and activities. Concern about environment and efficiency are part of daily routine in the college. We are responsible and dedicated to the cause of resource conservation. The Science departments of the college in association with the NSS are dedicated to the promotion of awareness on the protection of the environment, to minimize energy usage, increase green literacy, and to take up green campus initiatives.

Policies:

1. To assess our energy usage and measure its impact on Environment.
2. To install solar panels for the generation of alternate energy.
3. Turn off your monitor when you leave your table. Whenever possible, shut down rather than logging off.
4. Turn off unnecessary lights and use daylight instead.
5. Use LED or compact fluorescent bulbs as much as possible
6. Switch off lights, fans in conference rooms, classrooms and lecture halls when they are not in use. Avoid the use of decorative lighting.
7. Use the fans only when they are needed.
8. To undertaken tree plantation drive.
9. To provide information and training opportunities on energy saving measures.
10. To reduce Local Air Pollution emissions using Environmental-Friendly vehicles, Public Transportation.
11. To develop systematic Waste Management Mechanism.
12. To reduce noise levels in the college so as to create a peaceful environment for learning.
13. To develop an efficient waste management system.
14. Utilizing half used paper for rough work.
15. Women wash rooms are provided with incinerations to destroy sanitary napkins for easy disposal in an Environment friendly way.
