

BEYOND THE CAMPUS ENVIRONMENTAL PROMOTIONAL ACTIVITIES

Pydah College of Engineering firmly adheres to the policy of environment conservation and regularly organizes on- and off-campus activities that demonstrate our college's obligation to contribute to the sustainability of the environment. Our college has a Green Protocol Monitoring Committee comprising of staff and students that actively involved in orchestrating the environment conservation and awareness- raising activities beyond the campus.

The following are the key components of the institution's policy of beyond the campus environmental promotional activities:

➤ Making of Eco-Friendly Ganapathi:

Ganesh Chaturthi is all around the corner and to promote sustainability and save our environment Eco-friendly Ganapathi was prepared by the Cultural Committee of the Pydah College of Engineering NSS team where the partakers actively showed up and enjoyed themselves.

➤ Swach Bharat Mission:

The major objective of the Swach Bharat Mission is to spread the awareness of cleanliness and the importance of it. The concept of Swach Bharat Mission is to provide basic sanitation facilities like toilets, solid and liquid waste disposal systems, village cleanliness, and safe and adequate drinking water supply to every person.

➤ Tree Plantation Programme:

Pydah College believes in eco-friendly activities and it promotes tree plantation and the benefits of planting Trees and maintain an eco-friendly campus Most often we plant trees to provide shade and beautify our landscapes. These are great benefits but trees also provide other less obvious benefits.

➤ No Plastic:

Pydah College of Engineering has conducted an awareness program in the title of 'NO PLASTIC' for all students and staff. Many students and staff were made aware of plastic pollution through this program. This program was coordinated by NSS team.

➤ Water Shed Management and Waste Development:

Pydah College of Engineering captures the water resources and improving the management of soil and vegetation, Water Shed Development aims to create conditions conducive to higher agricultural productivity while conserving natural resources. An awareness program was conducted on the importance of Water conservation for future generations. Our students have educated the villagers on the sustainable management of water resources.
